Cause Of Death Choose Your Weapon

How done it can be as important as *Who done it*. Mystery writers delight in exploring inventive ways to kill people—from the genteel poisons of the English-style cozy to the sadistic methods used by villains in the modern thriller. Often, once the sleuth figures out how the murder was accomplished, it's a very short step to fingering the killer. Join authors from Mystery Writers of America—whose work ranges from the cozy to the spine-tingling—as they reveal how *they* do it.
